Thank you for considering a portrait model of your animal.

Good photographs are essential in order to produce the most accurate replica. Please be sure to photograph the animal in the same position for each shot so that it does not turn towards the camera each time. A minimum of 4 pictures from the angles depicted below are required. Any additional close up of the face would help accuracy and character portrayal.

Please allow up to 8 weeks for delivery, but if there is a special date required please let me know. I will inform you if there is a delay.

These animals are made to scale, approximately one-sixth life-size, to aid with this please complete the measurements form overleaf.

You should bear in mind that this is an artistic portrait and allowances must be made for interpretation even though an accurate portrayal is sought.

Please send this order form, together with enclosures, to:

(please allow min 8 weeks)

Other special instructions:

- 🐾 The models are made to scale at approx 100mm - 150mm unless otherwise requested
- 🐾 Please telephone to discuss if you would like an unusual animal portrayed
- 🐾 Additional copies can be made at a slightly reduced cost subject to negotiation.
(NB There are no guarantees that they will be absolutely identical)
- 🐾 Write your dog's name on the back of each photograph
- 🐾 Enclose a cheque for £60 deposit - not normally refundable
- 🐾 Remember to complete the Measurements Form overleaf

For measuring dogs and cats or similar animals:

Name of animal:

These animals are made to scale, between one-sixth and one-quarter lifesize (final size being between 100mm and 150mm, dependent upon breed).

To aid with this, please complete this measurements form following the guidelines for either seated or standing animal - which ever is the most appropriate.

1. Nose to back of skull

2. Length of ear

3. Shoulder to start of tail

4. Length of tail

5. Shoulder to ground

6. Depth of chest

7. Foreleg elbow to ground

(Standing)

8. Top of rum to ground

9. Rear-leg hock to ground

(Seated)

8. Top of knee to ground

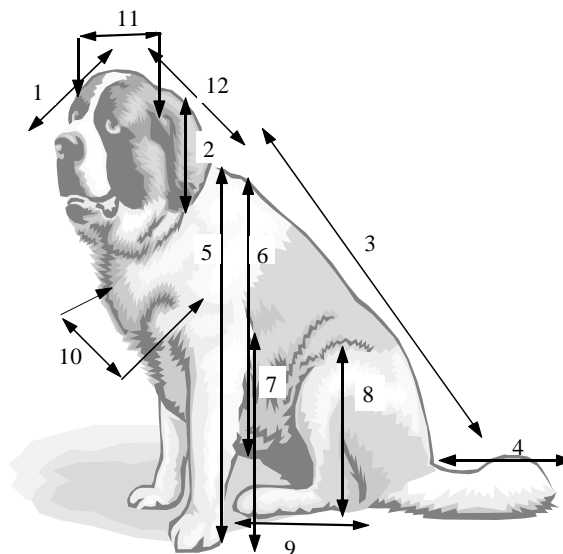

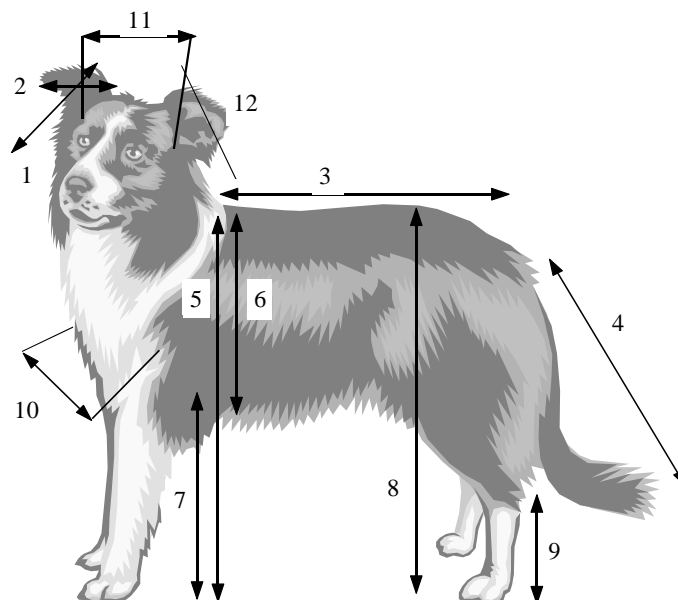

9. Hock to end of paw

10. Breadth of shoulders

11. Breadth of Forehead

12. Top of head to shoulder

13. Tip of nose to level of eyes

(Measurements should be in millimetres)
